

1993

1 -- 52. The method according to claim 51 wherein the arranging  
2 step comprises:  
3 displaying the plurality of channels in a first order on  
4 the monitor screen;  
5 moving a cursor on the monitor screen to selectively  
6 highlight one of the plurality of channels whose order is to be  
7 changed; and  
8 reordering the plurality channels in the channel listing,  
9 using the cursor, by moving the highlighted one of the plurality of  
10 channels from a first location to a second location in the channel  
11 listing. --

B1  
CMT 1 -- 53. The method according to claim 52 wherein the reordering  
2 step comprises dragging the cursor and highlighted one of the  
3 plurality of channels to the second location. --

1 -- 54. The method according to claim 52 wherein the reordering  
2 step comprises selecting, with the cursor, a second location for  
3 the highlighted one of the plurality of channels, and transferring  
4 the highlighted one of the plurality of channels from a first  
5 location to the second location in the channel listing. --

1 -- 55. The method according to claim 51 wherein the arranging  
2 step comprises:  
3 displaying each of the plurality of channels in the  
4 channel listing over time in a default sequence; and  
5 selecting a priority in the channel listing for each of  
6 the plurality of channels as it is displayed. --

1 -- 56. The method according to claim 55 wherein the step of  
2 displaying each of the plurality of channels in the channel listing

3 comprises displaying a channel label for each of the plurality of  
4 channels in the channel listing. --

1 -- 57. An electronic program guide comprising:  
2 a time and channel listing guide having a plurality of  
3 cells in which television program listings for a plurality of  
4 channels in a channel listing are displayed,  
5 wherein the plurality of channels in the channel listing  
6 of the guide are arranged by a viewer in a preferred order. --

1 -- 58. The electronic program guide according to claim 57  
2 further comprising means for arranging the plurality of channels in  
3 the channel listing of the guide in a preferred order. --

B/c  
C/mcd  
1 -- 59. The electronic program guide according to claim 58  
2 wherein the arranging means comprises a movable cursor displayed on  
3 the guide to selectively highlight one of the plurality of channels  
4 whose order is to be changed, wherein the highlighted one of the  
5 plurality of channels is moved from a first location to a second  
6 location in the channel listing. --

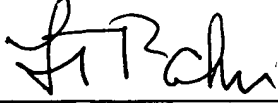

1 -- 60. The electronic program guide according to claim 58  
2 wherein the arranging means comprises means for displaying each of  
3 the plurality of channels in the channel listing over time in a  
4 default sequence and means for selecting a priority in the channel  
5 listing for each of the plurality of channels as it is displayed.
